

SOS 1000 ISLANDS MEETING MINUTES

DATE: Monday, February 9th, 2021

LOCATION: By Zoom conference

PRESENT: Steve Hatch, Stéphan Senécal, Helen Cooper, Dominique Gingras and Nathalie Landry.

Meeting called to order at 7:00 p.m.

⚓ **Artificial Reef**

- We discussed the feasibility of bringing the Norgoma to Brockville and sink it as an artificial reef. It was discussed that in order to proceed with this, we first need to have the City of Brockville behind us together with Tourism. With all the information that was given to us about the Norgoma, we are still not sure if this will be the best wreck to be sink as an artificial reef. Helen Cooper will ask how tall the ship is since we do not have this information. Steve will talk to the guy in New-York. We still do not have any money to buy it...

⚓ **Coast Guard Buoys**

- No answer from Christoph Opalka about the buoys in Prescott. Steve Hatch will ask Tom Scott if he could talk to him and gives us an update. It was discussed that if we could have some of the buoys, we could put one to direct us to the artificial reef and one for the science project with the Aquatarium.

⚓ **Adjournment: 20:35 p.m. Motion: Nathalie Landry**
